Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 March 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Rule 1.131 Declaration

The declaration filed on 3/20/06 under 37 CFR 1.131 has been considered but is ineffective to overcome the Fu reference.

The evidence submitted is insufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the Fu reference. Applicants are required to show that the apparatus actually existed prior to the critical date. It is the Examiner's position that Applicant's conclusory statement to that effect along with mechanical drawings are not sufficient facts to prove reduction to practice.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-16, 18-20, 22-34, 36-38, 40-59, 61, and 63-67 are rejected under 35 U.S.C. 102(e) as being anticipated by Fu.

The Fu reference discloses a cleaning device/extendable wand comprising a cleaning fluid reservoir/bottle 14, a cleaning head 24, a cleaning fluid delivery system/coiled tube 84, telescoping tubes 34 and 36, a pump 22, a handle 16, a sprayer 72, a mop head/cloth head 132, cloth retainers 142, a cloth 146, and an ice scraper 266.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17, 21, 35, 39, 60, and 62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fu in view of Schultz.

The Fu reference discloses a cleaning device as discussed supra, but does not disclose an adjustable sprayer knob which adjusts the spray pattern. However, the Schultz reference discloses a similar cleaning device wherein the sprayer includes an adjustable sprayer knob which adjusts the spray pattern to account for differences in the size of the area to be cleaned. It would have been obvious to employ an adjustable sprayer knob which adjusts the spray pattern on the Fu device in view of Schultz to account for differences in the size of the area to be cleaned.

Response to Arguments

Applicant's arguments filed 3/20/06 have been fully considered but they are not persuasive. Applicant argues that the Rule 1.131 Declaration filed concurrently with the response invalidates Fu as a prior art reference. However, it is the Examiner's position (as discussed in detail supra) that the declaration is insufficient to prove reduction to practice.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
